The Fischer Amps universal fit In ear earphone series: Simple yet brilliant.

Our Fischer Amps in ear headphone series has been developed with a passion for detail.

The engine with a perfectly selected and well-matched combination of maximum three or four balanced armature drivers form the basis of our FA series. Many years of experience in electronic and acoustic development helped us to create a fine and precision-tuned sound.

Ergonomically shaped, hand-finished earphone shells and high quality accessories round out the sound experience.

Simply put, a sophisticated manufactory product series, handcrafted in Germany with a unique sound experience, character and a compelling price / performance ratio.

Simplicity to the maxx
